"All TALK" celebrates the final year of the Marie Curie Grant awarded to the TALK collaborative. It has funded clinical debriefing implementation and research utilising the TALK framework.

We will share new materials, research outcomes, and Marie Curie Fellow experiences. You will also have the opportunity to listen to exciting guest speakers.

This is a great opportunity to network with like-minded colleagues and international clinical debriefing experts, share perspectives, and consider how to start clinical debriefing at your institution.
